## About This Game

An adventurer pulled out a roll of paper from under his garments. That was the map that a man in the tavern gave him. The map depicted the castle, and among its rooms, the path to the treasury was marked. They say that the treasury contains a lot of jewels and gold, but the most valuable of them is a diamond. They also say that it is the largest diamond in Dorgan, and maybe even in the entire world! Someone even asserted that for this precious stone one can buy a small castle, and for the rest of the money be fairly well-to-do until the end of their days. It was these stories that led the hero to the mysterious castle. You may ask, what is the name of this adventurer? His name is Swordbreaker!

The story of the game tells about the bloody and adventures of Swordbreaker before his coming to the mysterious castle. The hero has to go through many trials before he perhaps finds what he came for.

Swordbreaker will have to destroy hordes of enemies and solve a lot of puzzles to make his way to the castle. Upgrade Swordbreaker's skills, find unique weapons and armor. And most importantly — move towards your goal!

---

# Game features

- dynamic battles in the vast areas of Dorgan;
- mysterious locations full of enemies and secrets;
  - character upgrade system;
- RPG elements — change weapons, armor, and spells;
- dynamic change of music depending on Swordbreaker's karma.

---

Hello dears!

Recently done a lot of new beautiful models and are now engaged in the Assembly of new locations! One of them is a cemetery! Dark night, swirling fog and angels that keep the peace of this place...

[https://store.steampowered.com/app/1005990/Swordbreaker\\_Back\\_to\\_The\\_Castle/](https://store.steampowered.com/app/1005990/Swordbreaker_Back_to_The_Castle/). Development news #2:

Leather armor.

To be more strength than standard armor of the hero.

---

You can get this armor if you solve the secret at one of the locations.

Now we are adding new models to the location and some code processing in the game.

. **Development news #3:**

<https://www.youtube.com/watch?v=iiNXpghLxcY>

Continue working on the game!

All, as usual - make a new model of the environment for locations and everything else)

For those who have not seen - our video from the village.
